

OECD brings together the governments of countries committed to democracy and the market economy from around the world to:

- Support sustainable economic growth
- Boost employment
- Raise living standards
- Maintain financial stability
- Assist other countries' economic development
- Contribute to growth in world trade

The Organisation provides a setting where governments compare policy experiences, seek answers to common problems, identify good practice and coordinate domestic and international policies.

For more than 40 years, OECD has been one of the world's largest and most reliable sources of [comparable statistics](#) and economic and social data. As well as collecting data, OECD monitors trends, analyses and [forecasts](#) economic developments and researches [social changes](#) or evolving patterns in [trade](#), [environment](#), [agriculture](#), [technology](#), [taxation](#) and more.

For more information see: [www.oecd.org](http://www.oecd.org)

## Objectives

The Co-operative Research Programme's main objective is to strengthen scientific knowledge and provide relevant scientific information and advice that will inform future policy decisions related to the sustainable use of natural resources, in the areas of food, agriculture, forests and fisheries.

The objective and work of the Programme are anchored in both a policy and scientific environment in the fields of food, agriculture, forestry and fisheries, which, more than ever, are developed in a multidisciplinary environment. This happens to so as to respond to the varied demands from a range of stakeholder groups with interests in these fields, and to take into account that the world is globalised and food production systems are interlinked.

## Activities

The Programme achieves its objectives through two types of activities:

- **Research Fellowships:** sponsorship of scientists to conduct research projects in a different Member country with a view to strengthening the international exchange of ideas and increasing international mobility and co-operation.

The Programme pays transportation and subsistence costs to research scientists who have completed their postdoctoral training, have a permanent position, and are from Member countries to conduct research in a laboratory in another Member country. Fellowships may be from 6 to 26 weeks.

- **Conferences:** sponsorship or co-sponsorship of international conferences, workshops, symposia, congresses, (organised by, for example, research institutions, international associations), with a view to informing policy makers, industry and the academic world of current and future research, scientific developments and opportunities.

The sponsorship is in the form of funding certain invited speakers by paying for their transportation and subsistence costs.

Biological Resource Management  
for Sustainable Agricultural Systems

## How the Programme is Organised

The Programme comprises:

- **The Governing Body**, composed of a representative from each Member country. It agrees the programme of work, the budget, the orientation of the Programme and the selection of applications for funding.
- **The Scientific Advisory Body**, composed of 6 eminent scientists with agricultural research administration experience, nominated by the Governing Body. It ensures the scientific quality of the applications for funding and recommends the fellowships and conferences to be funded to the Governing Body.
- **The Secretariat** is responsible for the day to day operation of the Programme and provides a central contact point.
- **The National Correspondents** (one for each Member country) are responsible for promoting the Programme to interested scientists and institutions in their country and distributing information.

## Member Countries

Australia	Greece*	Poland
Austria	Hungary	Portugal*
Belgium	Ireland	Slovak Republic
Canada	Italy	Spain
Czech Republic	Japan	Sweden
Denmark	Korea	Switzerland
Finland	Netherlands	United Kingdom
France	New Zealand	United States
Germany	Norway	

\*Applications from these countries will not be accepted in 2012.

## Co-operative Research Programme Research Themes:

### THEME 1: THE NATURAL RESOURCES CHALLENGE

*Scientific Advisory Body members responsible for Theme 1:*

Dr. John E. SADLER  
Research Leader, USDA-ARS Cropping Systems and Water Quality Research Unit, University of Missouri, Columbia United States  
E-mail: [John.Sadler@ars.usda.gov](mailto:John.Sadler@ars.usda.gov)  
Tel: +1 (573) 884 1971; Fax: +1 (573) 882 1115

Dr. Leena FINER  
Finnish Forest Research Institute, Joensuu Research Centre, Finland  
E-mail: [leena.finer@metla.fi](mailto:leena.finer@metla.fi)  
Tel: +358 10211 3067 ; Fax: +358 10211 3113

### THEME 2: SUSTAINABILITY IN PRACTICE

*Scientific Advisory Body members responsible for Theme 2:*

Dr. Gary FITT  
Deputy Chief, CSIRO Entomology, Queensland, Australia  
E-mail: [Gary.Fitt@csiro.au](mailto:Gary.Fitt@csiro.au)  
Tel: +61 2 (0)7 3214 2828; Fax: +61 2 (0)7 3214 2881

Dr. Hans WEIGEL  
Institut für Biodiversität, Johann Heinrich von Thünen-Institut (vTI), Bundesforschungsintitut für Ländliche Räume, Wald und Fischerei, Germany  
E-mail: [hans.weigel@vti.bund.de](mailto:hans.weigel@vti.bund.de)  
Tel: +49 531 596 2501

### THEME 3: THE FOOD CHAIN

*Scientific Advisory Body members responsible for Theme 3:*

Dr. Primal SILVA  
Animal Health Science Directorate, Canadian Food Inspection Agency, Canada  
E-mail: [primal.silva@inspection.gc.ca](mailto:primal.silva@inspection.gc.ca)  
Tel: +1 613 773 5283

Dr. Rafael BLASCO  
Department of Biotechnology, INIA, Ministry of Science and Innovation, Spain  
E-mail: [blasco@inia.es](mailto:blasco@inia.es)  
Tel: +34 91 347 3913; Fax: +34 91 347 8771

**Securing the availability and managing the quality of natural resources for sustainable agricultural production systems**

Examples of topic areas might include:

- Monitoring and evaluating natural resource stewardship efforts
- Holistic economic and societal evaluations of systems where natural resources are used in the agri-food chain
- Planning and management of availability and efficient use of water, soil, air, biomass and energy
- Cross-discipline and technology evaluations to access sustainability, including models and databases

**Developing and adapting food, fibre and bio-energy enterprises, both modern and traditional, to contribute to the sustainability of natural resources**

Examples of topics might include:

- New tools for predicting, detecting and fighting pests from a sustainable perspective
- Risk assessment and management related to agricultural practices

**Contributing to technical advances to sustain the global food and agriculture systems from input to final consumption, taking into account changing consumer and societal interests**

Examples of topics might include:

- Impact of transgenic plants and animal cloning
- Genomic research relevant to agriculture and aquaculture
- New technologies for detection, diagnosis and treatment of old pathogens
- Emerging diseases and resistance to conventional treatment (new pathogens and strains)

### RESEARCH FELLOWSHIPS

Scientists who are nationals or permanent residents of a country participating in the Co-operative Research Programme may apply for a Research Fellowship.

Applications must be relevant to one of the Research Themes of the Programme.

The deadline for applications is 5 September of the year before the fellowships are to take place (for example: applicants applying for a fellowship to take place in 2012 must apply before 5 September 2011).

All applications must be submitted to the Secretariat through the online procedure. Full details, online application and Guidelines can be found on the Programme's website: <http://www.oecd.org/agriculture/crp> or by contacting the Secretariat at [TAD.Prog@oecd.org](mailto:TAD.Prog@oecd.org)

### CONFERENCE SPONSORSHIP

Conference Organisers wishing to apply for sponsorship of a conference should complete the application form which is available on the Programme's website, together with the Guidelines.

All applications must be submitted to the Secretariat and received by e-mail by 15 September of the year before the conference is to take place (*i.e.* applications for sponsorship of a conference to take place in 2012 must be submitted before 15 September 2011.)
